The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
1036 Longworth HOB
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Community Resilience Infrastructure and Mobile Charging project in fiscal year 2027. The entity to receive funding for this project is Orlando Utilities Commission, located at 100 W. Anderson Street, Orlando, FL 32801. The funding would be used for the acquisition, construction and installation of five charging units that will promote energy efficiency and sustainability during emergency management events. The project is an appropriate use of taxpayer funds because it is a project that promotes energy efficiency and fulfills the public's need for power during emergency events.

The project has a Federal nexus because the funding provided is consistent with purposes authorized in 42 U.S.C. 5305(a)(2).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in blue ink that reads "Darren Soto".
